**Presidents Report:**

Eckert reports,

State and Provincial conference: big turnout, people enjoyed our city, pffi hosted well, sold lots of merch

Div vs deputy chiefs: meeting scheduled for tomorrow, previous meeting was canceled and rescheduled. Not settled yet hopefully will be soon. With that, an open position needs filled, with council approval needed, potential for a special meeting to be called to get something through.

Chief selection process: Will also be discussed during meeting tomorrow with admin and HR. Anticipating a similar process as last time.

Buyout: approved in council yesterday. All received email about it today. Looks like five are eligible.

**Treasurer's Report:** absent

**Committee Reports:**

**Insurance:** Judge, no meeting last month, nothing to report

**Civil Service:** Anticipating changes needed if div/dep change happens

**Communications:** Send things

**PAC:** Hos reports

Works, but it doesn't do itself.

Election day was yesterday. Successes where we put our money. Spent money on Evans and Miller, first independent expenditure we have run. Ended up with 8,400 spent, mailers, online, print ads. Four way mayoral race, Gookin wins, we will work on working with him now. Takes office in January which will create a council vacancy, will see how that gets filled.

Levies around the state did poorly. Meridian paced by less than a one percent margin. All others failed, including KCFR.

Thanks all for the support and contributions.

Eckert notes: last council election council seats were won by thin margins, miller only by 50 votes this time a wide margin. IE seems to work.

**1st District:** Bieker reports,  
State and provincial went well.

E board meeting and convention is upcoming. Feb.23-25th. Express interest early. Good list of resolutions beginning to materialize. Some with funding tied to them. Will be good to some guys down there voting on our behalf. In the state house, looking at a bill to change LODD and catastrophic injury benefits. Had a grand opening of the pffi house during pep. If you are down there talk to Bieker and take a look, cool spot and our house.
